Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Friday 01 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Wet and windy weather moving north during Saturday.

This Evening and Tonight:
Many central and eastern parts becoming dry with clear periods and turning chilly. Breezier further west with showers, frequent in the northwest at first and later for Wales, northwest England and southwest Scotland. Gales in the north easing later.

Saturday:
Scattered showers and some sunny spells for Northern Ireland and northern Scotland. Rain, often heavy, moving north across England and Wales and other parts of Scotland. Gales in the south.

Outlook for Sunday to Tuesday:
Rain clearing north on Sunday and winds easing. Sunny spells and showers following, heavy and frequent with hail and thunder. Rain and strong winds possibly affecting the south on Tuesday.
